**CONTRACT AWARD – OMEGA FOOTPATHS**

**Civil Engineering Division** is pleased to announce that we have been awarded the Omega footpaths scheme that sees us return to the Omega development site located off the M62 at Warrington.

The 226 hectare Omega site, owned by Miller Developments, is situated on the former RAF/USAF Burtonwood airbase. It is home to a number of major distribution centres including the largest Walmart development outside the USA, in the Asda distribution warehouse. There are also future plans for retail, leisure, and phased housing developments on the site.

The scope of the works within our contract consist of the design and construction of a new combined footway/cycleway link in the Omega development and include earthworks, drainage, kerbing, surfacing and street lighting.
